Choice Wild Plants

COLLECTED FROM THEIR NATIVE HAUNTS by
The HOPEDALE NURSERIES.

TO OUR EVER INCREASING NUMBER OF
FRIENDS WHO LOVE WILD FLOWERS,
GREETING —

MAY 26 1931

FEW of you appreciate the task getting out this little list has been. We have been working at it for more than a year and yet do not feel satisfied with it. It is much better than our last general list issued in 1914. Several sorts developing to be annuals are dropped. Others, too scarce to secure with any degree of certainty are also omitted. Many botanical errors have been corrected. A considerable number of sorts have been added, making the list much more complete than any we have ever issued. We are adding the color of flower and approximate time of bloom, in this latitude. We trust this will further aid our customers in making selections.

We want to thank you for the ever increasing patronage we are enjoying. Last year we got out more than a million and a quarter of Wild Plants. We shall continue in our effort to render the best of service and shall hope for a continuance of your business.

TERMS:—Prices named are for cash, but ten days will be allowed to responsible parties. If longer time is wanted kindly arrange for it that we may know what to count on. No additional charge for boxing or delivering to carriers. If plants are shipped out of season requiring special packing to protect tops we charge extra for this at the cost of doing it. Should accounts run over 30 days from date of invoice, we ask 6 per cent interest from date of invoice. Stock travels at purchaser's risk and expense.

WE ARE COLLECTORS, primarily. Some sorts we aim to store sufficient for orders out of season. Some sorts we grow in favorable locations for out of season orders, and still other sorts may be secured out of season from located beds or from old tops. Prices named are for stock collected in season. We may be forced to have additional price out of season.

We have collectors at sixty or more points in the United States and can secure almost any native plant or seed if we are given time to locate it.

SEEDS:—If we have the order early enough we can collect seeds of most of the plants on this list at reasonable prices. Some of them we collect regularly—our business in native seed running from one to forty tons annually.

The items relative to position plants are found in nature, their color and season, are as nearly correct as our space would allow us to put them for this latitude. Other latitudes vary from this, especially in season.

The column "Where Native" indicates where we **USUALLY** secure one stock in this item. If particular where stock comes from, state so. We secure some items at many stations. Others only at one point. Most of them can be shipped from several points IN SEASON. Most small lots are sent from here. Often we can save time and cost in sending several of the items directly from collectors of them. We reserve the privilege of doing this.

STATE HOW YOU WANT ITEMS SENT:—By far the greater part goes by Express, through billing, general plant special rates, which on light shipments are less than freight usually. In event you do not tell us how to ship, we exercise our best judgment, but assume no risk. If **VERY LARGE QUANTITIES** are wanted write for special quotations on your wants.

ORDER EARLY:—We have a better chance to get the stock in proper season. You get better plants and service.

MISTAKES:—We make them—so do our collectors. Most large lots are shipped **DIRECTLY** from point of collection. If you receive anything from our collectors below amount billed or grade, advise us of particulars and we will adjust it.

Don't forget our regular business, **THE NURSERY**. We have growing over 30 acres of trees in great variety of sorts up to 7 in. caliper. A general assortment of Shrubs, splendid Evergreens up to 7 ft. in many sorts, Fruits, Vines, Perennials, etc. In many items we can serve your wants from single plant up to many carloads. Let us figure on your wants in these. **ORDER EARLY**.

HOPEDALE NURSERIES, HOPEDALE, ILL.

CHOICE WILD PLANTS

HOPEDALE NURSERIES, Hopedale, Ill.

WILD PERENNIALS

EXPLANATION OF ABBREVIATION:—H. or Here means, we get most of our supply here in Central Illinois; M. or Mich. in Michigan; T. or Tenn. in Tennessee; N. C. in North Carolina; N. Y. in New York, S. D. in South Dakota; I. or Ind. in Indiana; G. in Georgia; N. G. or Nur. is Nursery Grown. Many items may come from several points. These are the most common points where we get stock. Larger lots are usually shipped from point of collection.
